PREETI DNYANESHWAR GAIKWAD

B.Tech. CSE – Artificial Intelligence & Machine Learning | 2nd Year, 3rd Semester

Kopargaon, Maharashtra | +91 9403773971 | gaikwadpreeti267@gmail.com

LinkedIn | GitHub | HackerRank

PROFILE

CSE (AI/ML) student with foundational knowledge of programming, data structures, OOP, operating systems, DevOps, and web technologies. Hands-on exposure through hackathons, prototype development, research, dataset exploration, presentations, and team leadership. Seeking a first internship to apply academic knowledge, develop practical skills, and gain real-world experience.

EDUCATION

Sanjivani University **2025 – 2029**

B.Tech. Computer Science & Engineering – Artificial Intelligence & Machine Learning **CGPA: 7.5/10**

Class 10 **86.50%**

TECHNICAL SKILLS

Programming	C, C++, Python, Java, JavaScript
Web	HTML, CSS
CS Fundamentals	Data Structures & Algorithms, OOP, Operating Systems, DevOps, Agile
Design	UI/UX, Design Thinking
Tools	VS Code, GitHub, Google Colab, Jupyter Notebook, Microsoft Word, PowerPoint

PROJECTS

Quicked – Healthcare & Hospital Emergency Assistance Prototype *Personal / Team Prototype*

- Developed the core concept and feature ideas for a healthcare-focused application aimed at hospital emergency assistance and patient support.
- Worked in a six-member team and collaborated with a teammate to create an early prototype during the first year of college.
- Created an initial application form using **Firebase Studio** and developed a supporting website using **Lovable AI**.
- Contributed to feature planning, user-flow ideas, research, documentation, and project presentation.

ThermoGuard – Fire & Thermal Source Classification *Smart India Hackathon 2026*

- Worked as Team Leader on a disaster-management solution for detecting and classifying satellite-detected thermal hotspots.
- Researched and analyzed **NASA FIRMS** data and referred to the official FIRMS platform to understand satellite fire and thermal information.
- Contributed to dataset investigation, research, problem analysis, and preparation of the project presentation.
- Proposed an approach combining NASA FIRMS, OpenStreetMap, land-cover information, and historical thermal data to distinguish thermal sources.

LEADERSHIP & ACTIVITIES

- **Smart India Hackathon 2026 – Team Leader:** Led team coordination and contributed to research, NASA FIRMS dataset investigation, problem analysis, and presentation.
- **Smart India Hackathon 2025 – Team Leader:** Led a six-member team working on Quicked, contributing to solution ideation, prototype development, research, and presentation.
- **Class Representative** and **AIML Department Association Member**, supporting student–faculty communication and departmental activities.

SELECTED CERTIFICATIONS

- C Programming
- Introduction to Python
- Data Visualization
- Data Science for Beginners
- Introduction to Generative AI
- Idea Pitching
